MONTHLY ASSESSMENT -III (Detail Design, Prototype and Test phase)
(This assessment shall be done by another guide of department or interdepartmentally along with guide)   (DATE : 27/9/19)

1. Which theoretical subjects/concepts are involved with your project? How it is useful to your project?

   Our project is mainly designed using HTML, MySQL and Java. Java is used for backend, HTML is used for frontend and MySQL is used for Database Connectivity.

2. Which software/design tool/Skills you have learned/applied during the project? Explain the features of it.

   Software skills we have learned during the project are to learn new languages that are, Java, HTML and MySQL. MySQL are used for Database Connectivity and to connect Backend and frontend. HTML is used for Backend side and Java is used for frontend.

3. Explain the prototype/model prepared by the student/team.

   For Prototype we have created different web pages and sign up pages for User. We have designed Registration form, login Page, welcome Page, Question list Page and About Page.

4. What are the materials, technology, things have utilized to make the prototype/model?

Technology used in this project are HTML, Java and MySQL. Whole project is designed on eclipse. For server connectivity we have used Acrobe Tomcat.

5. How many Iterations have you done to reach final solution? Explain modification/revise parameters/characteristics for each iteration.

We have done 4 to 5 iterations to set layout of page using CSS and 2 to 3 iterations for Database connectivity. If any error was occuring we were solving and retrying it.

6. What is the scope of the project? How you are planning to implement it in future?

Scope of our Project in future is very high as there is a large demand for online exam due to it's efficiency. We are planning to implement it in companies for taking Aptitude Exam.
